Performance 7

Home Solar Panel

440–460 W | SPR-P7-XXX-BLK

Bifacial energy generation

Framed glass-glass

One-third cut, shingled-cell design

Hail: 40 mm (27.5 m/s)

Fire Rating: Class A (IEC/UL)

High lifetime energy production

The shingled-cell design helps to manage shade and keep cell temperatures low to produce more power over time.

Made for real weather

Its strong frame and cell connection design helps to protect the panels against weather challenges like temperature swings, snow loads, and hail.

No sacrifices for curb appeal

Smaller metallic wires help to achieve a sleek black appearance to seamlessly integrate into your roof.

Sustainable at its core

Make a responsible choice for both your home and the planet with sustainably manufactured Performance panels. SunPower designs panels with sustainability in mind – from materials and manufacturing to conflict tracing and zero tolerance of labour rights violations.

A better product, a better warranty

SunPower Performance 7 panels are covered by a 30-year warranty.¹ Manufactured for long-term durability—covering defects related to workmanship and materials for a full 30 years.

Product and power coverage	30 Years

1 Performance 7 solar panels are backed by a 30-year warranty. Subject to terms and conditions. Not available in all countries. 30-year warranty requires registration, otherwise our 25-year warranty applies. Not available for earlier generation Performance panels, where a 25-year warranty applies.

2 Standard Test Conditions (1000 W/m² irradiance, AM 1.5, 25° C). NREL calibration Standard: SOMS current, LACCS FF and Voltage.

3 Measurement tolerances (P_{max}/V_{oc} +/-3%, I_{sc} +/-4%).

4 The additional gain from the back side of the panel compared to the power of the front side of the panel at the standard test conditions. It depends on mounting (structure, height, tilt angle etc.) and albedo of the underlying surface.

5 BNPI Test Condition (front 1000 W/m², rear 135W/m² irradiance, AM 1.5, 25° C).

6 Performance DC panels are Cradle to Cradle Certified™ Bronze - www.c2ccertified.org/certified-products/maxeon-performance-solar-panels. Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute.

7 Test load as per IEC 61215-2 is equal to design load with safety factor = 1.5. See "Safety and Installation Instructions."
